International Chamber of Commerce

Commission on

CORPORATE RESPONSIBILITY AND ANTI-CORRUPTION

WHO WE ARE

The ICC Commission on Corporate Responsibility and Anti-corruption is a leading global private sector body that develops policy recommendations and practical tools from a global business perspective on corporate responsibility and fighting corruption.

ICC's voluntary market-based approach for fighting corruption and for high standards of responsible business conduct contribute to leveling the playing field for all participants in a global economy.

WHAT WE DO

ICC has taken the lead among business organizations in denouncing corruption and developing rules to combat it. The ICC Rules and Recommendations to Combat Extortion and Bribery constitute the cornerstone of ICC's anti-corruption work, serving both as a tool for self-regulation by business and as a roadmap for governments in their efforts to fight extortion and bribery. In addition to these flagship ICC Rules, the commission has developed a suite of crucial anti-corruption tools for companies to use proactively as part of their integrity programmes. The Commission also provides business with practical instruments to contribute to their CSR performance and shapes the development of key standards for corporate responsibility.

MEMBERSHIP BENEFITS

The Commission brings together over 250 members from 40 countries, representing multinationals, banks, law firms, trade associations and SMEs. Members actively shape policy work through an exchange of experience and know-how to develop a "one-stop-shop" for businesses of all sizes looking to strengthen their business ethics performance. The Commission frequently joins forces with other key international players (OECD, UNGC, WEF, TI etc.)

HOW A COMMISSION WORKS

ICC Commissions are specialized working bodies composed of business experts who examine major issues of practical concern to world business. They prepare policy products, including statements to shape intergovernmental discussions, as well as rules and codes to facilitate international business transactions.

Commissions can establish task forces for a limited period to carry out specific projects. Some task forces may include representatives of more than one commission.

CURRENT PROJECTS & GOALS

- Develop ICC Training based on the "ICC Ethics and Compliance Training Handbook", addressing a range of issues including training, SMEs and solicitation.
- Shape G20 Anti-corruption recommendations, drawing from ICC's anti-corruption tools as a basis for concrete action by business for fighting corruption.
- Inject global business input in implementation of the UN Guiding Principles on business & human rights.
- Promote use of the ICC Rules on Combating Corruption (2011) among businesses and policy makers.
- Raise awareness of the ICC Anti-corruption Clause to preserve trust for parties & prevent corruption.
- Provide global business input into international initiatives on corporate responsibility and anti-corruption.
- Contribute global business views on corporate responsibility reporting.
- Articulate business views on ISO's initiatives in the area of Corporate Responsibility and Anti-bribery.
