

The International Chamber of Commerce is pleased to announce the date of its 4th International Mediation Conference

4TH ICC INTERNATIONAL MEDIATION CONFERENCE

Paris, 7 February 2013

STAY IN CONTROL!

Managing risks, time and costs of commercial disputes with smart ADR

Topic

The current economic climate makes it more necessary than ever for companies to keep control over their finances and resources. Commercial disputes have a tendency to consume large parts of those resources. This conference will examine how alternative and amicable dispute resolution (ADR) mechanisms can provide companies with greater control over the ever increasing costs and risks of dispute resolution processes. The invited speakers — corporate representatives and experienced dispute resolution professionals — will aim to provide practical advice and tested tools for improving dispute management.

Conference highlights

- Dispute analysis and selecting the best-fitting settlement procedure for the dispute
- Financial reasons for implementing ADR and mediation as part of a company strategy towards controlled dispute management
- How companies need to prepare for the future of commercial dispute resolution
- Exchange of know-how on how best to implement and execute ADR mechanisms within corporations, including a roadmap for in-house use
- Case examples of how and when companies should involve external counsel

Audience

This conference will be of particular interest to in-house counsel, representatives of corporate management and external counsel.

Venue

International Chamber of Commerce (ICC)
38 Cours Albert 1er, 75008 Paris, France
