

ISP MASTER

Comprehensive online training in ISP98 and standby credits

Course overview

ISP Master contains over 12 hours of online training and instruction in ISP98, the rules governing the operation of Standby LCs/ independent undertakings.

■ Essentials Module

Examines the use of assurances in commercial arrangements, the function of dependent and independent undertakings, the roles of the parties to standby credits and the key terms and conditions that are used in standby letters of credit.

■ Rules Module

Provides an article-by-article analysis of the ISP98 rules and also examines the comparable provisions of UCP 600.

■ Case Studies Module

Covers key aspects of standby letter of credit work.

■ Assessment Module

Provides a comprehensive assessment for trainees to test their knowledge of standby credit practice and ISP98.

Benefits

- The course content is written by the world's leading trade finance experts.

- One year access.
